Home theatre surge protector

2300 Joules/108,000 Amperes

Designed for the home theatre enthusiast, this advanced surge protector uses Pure Power technology which filters EMI/RFI noise so only clean power enters your electronic equipment. Keeps your picture sharp, data reliable and sound clear.

Ideal for home theatre systems
- RJ45 data line protection
- 2 sets gold coax protection

Ultimate performance design
- EMI/RFI noise filtration
- 8 outlets
- Power blocker

Dependable protection
- V3 Advanced Surge Technology
- £300,000 equipment warranty

Built-in convenience
- Right angle plug
- Protection indicator light
- Cord management system
- 2 m power cord

PHILIPS

sense and simplicity

Surge protector
Home theatre 8 outlets

Specifications

Packaging dimensions
- Packaging dimensions (W x H x D):
  6 x 23.2 x 48 cm
- Net weight: 0.943 kg
- Gross weight: 1.203 kg
- Tare weight: 0.26 kg

Outer Carton
- Outer carton (L x W x H): 50 x 25.1 x 19.7 cm
- Net weight: 2.829 kg
- Gross weight: 4.159 kg
- Tare weight: 1.33 kg

Highlights

RJ45 data line protection
These connectors route the data line through the surge protector to protect against spikes and surges that may occur through the data line.

2 sets gold coax protection
Gold-plated connectors route the coaxial signal through the surge protector to protect the line from surges and spikes. Allows two cable devices to be plugged into the same unit. Gold connectors act to reduce noise (snow, vertical lines etc) in picture and keep data safer from devices with cable modems.

EMI/RFI noise filtration
Built-in filtering technology ensures the best performance from your components. It guards against signal interference and loss of data.

V3 Advanced Surge Technology
This new surge protection technology provides 27% greater surge protection capacity and better heat dissipation for safe, more reliable and longer-lasting surge protection.

8 outlets
Converts one outlet into eight outlets, allowing you to plug in multiple devices from a single AC outlet.

Right angle plug
This flat design allows for more positioning options and lets furniture sit more closely to the wall.

Protection indicator light
This LED alert lights up to indicate the surge protector is working properly.

Cord management system
Collects the power cords and directs them away from the device in an organised fashion to keep the area clutter-free.

Power blocker
This automatic shutdown technology senses when the device has reached capacity and automatically shuts down electricity to your equipment. It protects against subsequent surges, even if you are not present

£300,000 equipment warranty
Protects your connected equipment for the life of the product.

2 m power cord
Provides power to the unit, which can be 2 m from the AC outlet.
